**Machine Tool Making—
Textiles Steady.**

The commercial agencies tell of a steady trend in trade conditions, though still irregular and producing actual change in the week. Textile markets are steady, with cotton goods in demand. In special lines, such as machine tool and automobile making, there is an actual scarcity of labor. Building materials are showing a better movement, with a fair export business.

"John's Review" says: "Business conditions show comparative little change, and though the relatively cheerful outlook is maintained, conservatism goes hand in hand with increased confidence. The steel goods are generally steady, cotton being in liberal request, and woolens. Woolen worsteds are quiet, and carpets are more active and higher. Buildings are moving slowly. Building materials are larger in the Eastern states and building materials are in steady demand, with considerable export."

Commercial failures this week in the United States are 429, against 447 last week, 459 the preceding week, and 442 the corresponding week last year.

These 184 were in the East, 143 in West and 64 in the Pacific.

106 and 107 reported liabilities of \$100 or more, against 158 last week.

Liabilities of commercial failures reported for April are \$43,517,870, compared with \$40,649,444 for the same period last year.

"Bradstreet's" has the following:

"Undercurrents run in a favorable direction, though trends in certain lines and some sections, affected either by weather conditions or market dependence on a particular commodity, still continue."

But by and large, the outstanding factors indicate that industry has made further progress. Plants making war supplies are pushed to the limit, and employment is decreasing, scarcity of labor, the machine tool and textile trades, distribution of essential commodities, though checked in and there by vagaries of the weather, is growing and there is a longer disposition to order ahead.

Buying of drygoods is probably larger than at this time last year, lumber shows irregular improvement and coal rates are better."
